PROFILE SUMMARY

Result-driven Software Engineer with 3 years of professional experience designing, building, and deploying scalable full-stack web applications. Expert in TypeScript, React.js, Next.js, Node.js, and NestJS, with a strong background in backend architectures (Laravel, MySQL). Proven track record of optimizing API performance, integrating complex third-party services (IoT, Facebook APIs), and building accessible, user-centric interfaces. Adept at leveraging modern AI development tools to accelerate delivery timelines while maintaining high code quality and architectural integrity.

SKILLS

- **Frontend** : React.js, Next.js, TypeScript, JavaScript, HTML5, Tailwind CSS, Responsive UI Design
- **Backend & Databases**: Node.js, NestJS, Express.js, Laravel, MySQL, SQL, REST API Design & Integration
- **Tools & Devops**: Docker, Git, GitHub, Postman, Figma
- **AI-Assisted Development**: GitHub Copilot, ChatGPT, Claude AI

PROFESSIONAL EXPERIENCE

Software Engineer Orisys India Consultancy Services Pvt Ltd	Technopark, Trivandrum June 2023 - present
• Architect and develop high-performance web applications using React.js, Next.js, TypeScript, and NestJS, enhancing overall frontend rendering speeds. • Design, build, and integrate secure RESTful APIs, collaborating closely with cross-functional teams to ensure seamless data flow and zero-downtime deployments. • Lead debugging and optimization initiatives for production systems, successfully eliminating performance bottlenecks and increasing platform reliability. • Standardize API testing and validation workflows using Postman to guarantee reliable frontend-backend communication and contract compliance. • Manage source code repositories using Git, actively participating in rigorous code reviews to maintain high standards of code quality and maintainability.	

PROJECT

Orisys India Conslutancy Service Visually Impaired Agent Calling System • Engineered an accessible banking call management platform strictly compliant with JAWS screen reader software guidelines. • Built highly responsive, semantic React-based interfaces to optimize usability and accessibility for visually impaired operators. Tech Stack: React.js, Laravel, JAWS, Git HLL Lifecare Limited	
---	--

- Provided backend support fixing bugs, assisting developers, managing database/server tasks, and ensuring application stability.

Tech Stack : **Laravel**

OricomS

- Integrated Facebook APIs into OricomS project to connect, manage, sync data, and generate leads through enhanced user engagement and streamlined social media interactions

Tech Stack & Facebook feature : **Laravel, GIT, Facebook API Integration**

AOAOK

- Developed and optimized scalable membership renewal and subscription workflows utilizing React.js and NestJS.
- Built automated batch processing logic to manage digital magazine access, improving subscription retention and user experience.

Tech Stack: **React.js, NestJS, MySQL, Git**

Smart Chlorinator (IoT)

- Developed real-time monitoring and control dashboard modules for distributed IoT sensors and industrial hardware.
- Implemented highly efficient CRUD operations and dynamic data filtering, significantly increasing operational visibility for field engineers.

Tech Stack: **React.js, REST APIs, Git**

Multisite Job Portal

- Developed full-stack document management features using React.js, Node.js, and Express.js.
- Implemented secure file upload/download functionality and complete CRUD operations.
- Designed and integrated APIs to manage user documents across multiple job portals.

Tech Stack: **React.js, Node.js, Express.js**

Self Project

Personal Portfolio Website

- Developed a responsive personal portfolio to showcase projects and skills, with UI/UX designed in Figma. Built using Next.js and TypeScript, and styled with Tailwind CSS for a clean, consistent, and high-performance user experience.
- Tech Stack & External Tools : **Figma, Next.js, TypeScript, Tailwind CSS**
- Link : [My PortFolio](#)

EDUCATIONAL QUALIFICATION

- **Bachelor of Computer Applications (BCA)** | *Manipal University Jaipur (Online)* | Expected 2028
- **Diploma in Electrical and Electronics Engineering** | *Amrita Institute of Technology* | CGPA: 88% (2021)

CERTIFICATION

- *Python & Django Full-Stack Development Course (Nov 2022 – Jan 2023)*
